

INVITATION TO SUBMIT TECHNICAL AND COMMERCIAL OFFERS

Casing Supply Services

We hereby invite qualified and experienced companies to submit their technical and commercial proposals for the provision of Casing Supply Services in accordance with the scope of work outlined below.

Scope of Work

The scope includes the supply of casing and wellhead equipment required for re-entry into one suspended well and the drilling of two new exploration wells located in the Ghadames Basin, Block 95/96.

The Contractor shall supply tubing and casing products to complete the equipment already available on site. The abandonment equipment installed on the well must be reused for well securing after drilling and evaluation operations. Inspection of the abandonment equipment is required, and any damaged components must be replaced.

Technical Requirements

The casing products must meet the following specifications:

- Dimensional and quality standards: API 5CT
- End design: As per API 5CT requirements
- Coating: Black painting according to API 5CT
- Packaging: Loose packing suitable for shipment

Handling and Storage Guidelines

Pipe must be handled safely and organized to prevent damage and ensure personnel safety. Proper thread protectors must be used, and stacking should avoid bending and moisture exposure. Periodic inspection and maintenance are required to ensure integrity and traceability.

Submission Guidelines

- Offers must be submitted in sealed envelopes waxed in red.
- Both technical and commercial proposals must be included.
- Pricing details must be confined to the commercial offer only.
- Deadline for submission: within FIVE (5) days from the date of this announcement.

We look forward to receiving your proposals.

No.	Item	Specification	Qty (meters)
1	Casing	20", 94#, BTC R3 K55, API SPEC 5CT	260
2	Casing	13"3/8, 61#, K55, BTC R3, API SPEC 5CT	2500
