

Invitation to Tender for Casing Tools Rental Services

Project Title: Downhole Casing Tools for Exploratory Wells

Reference: Casing Program

Deadline for Submission: Within 5 calendar days from the date of this announcement

We invite qualified and experienced companies to submit their **technical and financial proposals** for the provision of **casing tools rental services** for two exploratory wells. Proposals must be submitted in **sealed and wax-stamped envelopes**, and must include:

- Detailed **technical offer** including equipment specifications and compatibility.
- Comprehensive **financial offer**.
- Company profile and **relevant experience** in casing operations.
- List of available **equipment and accessories**.
- Delivery schedule and **support services**.

Note: This tender covers **only the first two exploratory wells**. Additional wells may be confirmed later based on performance and operational results.

Casing Program Overview

Total Depth: Approx. 4951 ft (1510 m)

Casing Type	OD (inches)	Depth (ft)	Weight (lb/ft)	Grade	Connection Type
Conductor	20"	120 ft (37 m)	94.0	K-55	BTC
Surface	13 3/8"	550–656 ft	54.5	K-55	BTC
Intermediate	9 5/8"	2470–2750 ft	40.0	K-55	BTC
Production	7"	4653–4951 ft	26.0	K-55 / L-80 13Cr	VAM TOP

Required Services and Equipment

- Rental of casing running tools compatible with the above casing sizes and grades.
- Handling and makeup/breakout equipment.
- Thread protectors and centralizers.

- Float equipment and casing accessories.
 - Onsite technical support and supervision.
 - Compliance with HSE and QA/QC standards.
-

Submission Instructions

- All proposals must be submitted in **sealed and red wax-stamped envelopes**.
- Include both **technical and financial offers** in separate envelopes.
- Attach all supporting documents including:
 - Equipment datasheets
 - Personnel CVs (if applicable)
 - Previous project references
 - Delivery and mobilization plan

We look forward to receiving your proposals.
