

Invitation to Tender for Coring Services

Project Title: Coring Services for Exploratory and Appraisal Wells

Reference: Coring Services

Deadline for Submission: Within 5 calendar days from the date of this announcement

We hereby invite qualified and experienced companies specialized in **downhole and surface coring services** to submit their **technical and financial proposals** in **sealed and wax-stamped envelopes**. The proposals must include:

- A detailed **technical offer** in accordance with the scope of work.
- A comprehensive **financial offer**.
- Company profile and **relevant experience** in similar coring operations.
- List of proposed **equipment and personnel**.
- Compliance with **technical specifications** and **core handling procedures**.

Note: This covers **only the first two exploratory wells**. The remaining wells will be confirmed at a later stage based on the performance and results obtained from the initial two wells.

Scope of Work Summary

- **Total Core Length (Phase 1):** Approx. 480 ft in 2 exploratory wells
- **Well Sections:** 8 ½" and 12 ¼" vertical sections
- **Core Barrel Sizes:** 6 ¾" or 7 ⅛" with 4" core
- **Expected Core Recovery:** ≥ 80%
- **Maximum BHT:** 93°C
- **Formation Pressure:** 2800 psi

Technical Requirements

- **Coring Equipment:**
 - Core barrels with stabilizers
 - Safety and circulating subs with redress kits
 - Core saw (rock splitting machine)
 - Portable gamma-ray logger

- Handling tools, spares, and consumables
 - PDC or impregnated core heads
 - Fiberglass inner tubes with thread protectors
 - **Core Handling:**
 - Onsite cutting, marking, and gamma logging
 - Packing in 3ft (1m) core boxes
 - Preservation and protection for RCA & SCAL
 - **Personnel:**
 - 2 coring engineers (24-hour operations)
 - 4 core processing engineers
 - All personnel must be experienced and approved by the Company
-

Example Coring Intervals (Phase 1)

- **Well TD ~ 5050 ft (1539.5 m):**
 - Tahara: 2630–2690 ft
 - Awaynat Wanin: 3007–3067 ft
 - Mamuniyat: 4384–4444 ft
-

Submission Instructions

- All proposals must be submitted in **sealed and red wax-stamped envelopes**.
- Include both **technical and financial offers** in separate envelopes.
- Attach all supporting documents including:
 - Equipment specifications
 - Personnel CVs
 - Previous project references
 - Compliance with HSE and QA/QC standards

"All technical and commercial offers shall be submitted to the Operations Department – Drilling Operations Supervision."

We look forward to receiving your proposals.
